122 Outer Drive Clear Lake
Fremont, IN 46737

January-March 2004 Issue

March 21, 2004

Hi Lakers:

As I write this, the ice is like a giant ice tray and will be moving out exposing open water- a sure sign of Spring coming!

Just a few items of importance; as of March 8th the town has not found a liability insurance carrier, but we are still searching.

The Clear Lake Waste Water System is up and running and available for hook up. If you have not contacted a hook up contractor, I'd suggest doing so, as many of the contractors are extremely busy. A list of contractor is printed in this mailing.

We hope you have had a safe, healthy winter and look forward to a good summer season.

Best Regards,

Bob Troll, President Clear Lake Town Council

Thank You

The Town of Clear Lake would like to send a special thanks to Emma and Alan Brown for their hours of dedication in producing the Clear Lake News. The Clear Lake News will be produced and sponsored in the future by the Clear Lake Association. Please be patient with the first two issues as new production methods and computers are used.

Town Officials and Office Hours

Town Council

Robert Troll, President	Ward 1: Cottages 10-416	(260) 495-5152
Jack McArdle	Ward 2: Cottages 420-802	(260) 495-4671

Town Marshal	Richard A. Lehman	(260) 495-9620	Saturday 8am to 11am
Zoning Inspector	Dave Gardiner	(260) 316-7667	

Marshal's Page

Boating season is just around the corner. Below are some suggestions to ensure that you are prepared:

1. Be sure that you have your current Excise decals on your boats. *This includes sailboats as well as motorboats.*
2. Check to be sure that you have enough wearable Personal Flotation Devices on board and that they are sized for the occupants of the boat.
3. Check all required lights to be sure they are in working order.
4. If you have a detachable stern light, be sure it is in the boat. Make sure that anyone who operates your boat after sunset knows the location of the stern light.
5. A copy of the current Sunrise/Sunset timetable is available at the Town Hall. I would encourage every Clear Lake Resident to have one of these at the lake.

Boater Education Class

The class requires a minimum of 10 (ten) students. Minimum age for the class is 12 years. Anyone interested should contact Dick Lehman at 260 495-9620 as soon as possible. The class will be held in June with the dates to be determined.

Wastewater Update

The sewer system is working and ready for hook ups. Permits can be obtained at the town hall.

Sewer hookups must be completed by December of 2004.

Sewer Project Contractors

NOTICE: The Town of Clear Lake is furnishing this list for the convenience of property owners. The Town is making no other representation about these contractors.
