Marshal Reminders!

Recommended Minimum Ice Thickness:

2" or less - STAY OFF

4" - Ice fishing or other activities on foot

5" - Snowmobile or ATV

8" - 12" - Car or small pickup

12" - 15" - Medium truck

New ice is usually stronger than old ice. Ice seldom freezes uniformly. The insulating effect of snow slows down the freezing process. Schools of fish or flocks of waterfowl can also adversely affect the relative safety of ice.
